Forecast For Southwest England
Issued by Met Office Exeter
at 1600 on Tuesday 12 Oct 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Largely dry with sunny spells but fog patches overnight.

This Evening and Tonight:
Remaining largely dry this evening with some late sunshine in places, however thicker cloud arriving across Gloucestershire and Wiltshire, possibly bringing a few spots of rain. Elsewhere, dry and largely clear overnight and becoming chilly with fog patches forming. Minimum temperature 4 deg C (39 deg F).

Wednesday:
Mist and fog patches slowly lifting to give a generally dry day with a mixture of cloud and sunny spells. Feeling warm in the afternoon sunshine and light winds. Maximum temperature 18 deg C (64 deg F).

Outlook for Thursday to Saturday:
Patchy fog on Thursday morning, otherwise dry with sunny spells. Feeling cooler on Friday with cloud and patchy rain at first, then sunnier later. Largely dry and bright on Saturday.
